

2009

International Energy Workshop

17-19 June
Fondazione Giorgio Cini, Venice Italy

CALL FOR PAPERS

2009 International Energy Workshop

Venice, June 17th - 19th

<http://www.iccgov.org/iew2009>

Deadline for submission: March 1st, 2009

The 2009 International Energy Workshop (IEW), organised in cooperation with the International Center for Climate Governance (a joint initiative of the Fondazione Eni Enrico Mattei and the Fondazione Giorgio Cini) and the Euro-Mediterranean Centre for Climate Change (CMCC), will be held in Venice, on June 17th-19th, and will take place in the magnificent scenario of the Island of San Giorgio Maggiore.

The International Energy Workshop (IEW - <http://www.internationalenergyworkshop.org/>) is an informal network of analysts actively working on international energy issues since 1981. The IEW provides a venue for scholars and researchers to compare quantitative energy projections and to analyse the interrelationship between climate change and energy. This year meeting will include three plenary sessions, each one hosting two key-note talks, and approximately 80 presentations covering a wide array of topics.

Researchers and practitioners are invited to submit original papers containing new and innovative results referred to scientific or practical experiences focused on the following topics:

- energy: supply, demand and technology costs
- oil and gas price forecasts
- energy efficiency
- technological innovation in the energy sector
- economics of climate change
- adaptation and mitigation policies
- renewable energies
- the interface of energy, environmental, engineering and economic issues
- uncertainty in climate-economic modelling
- energy issues in specific sectors (transports, building, land use and forestry, etc.)

Selected papers will be presented and discussed in thematic sessions, circulated during the meeting and also posted in the meeting website.

Submission of papers

Full papers or long abstracts (minimum 1000 words) in .pdf version should be submitted by e-mail to Leo Schrattenholzer (LeoShr@a1.net), co-director of the International Energy Workshop, before **March 1st, 2009**.

Final papers will be due two weeks before the meeting for being posted in the meeting website.

Further information on the 2009 IEW Meeting is available at: <http://www.iccgov.org/iew2009/>.
